

Top 10 services to streamline your group benefits

Managing group benefits isn't easy, and the administrative work that comes along with it can be time consuming. But with these top 10 services you can streamline your group benefits and get back to building the business you love.

1. HR administration

There are many tasks that come with offering group benefits. We offer many complimentary benefits to help, such as access to HR360 and an HR attorney, newsletters and training.

2. Compliance management

Compliance is complex, which is why we provide a free annual compliance review and documentation (including Wrap SPD, pop documents, benefit notices, and more).

3. Billing/invoice support and reconciliation

We will work directly with the carrier to resolve any billing issues.

4. Claims support

Your employees can come straight to us for help with claims issues.

5. Policy and general questions

From group presentations to one-on-one consultations, our experts are here to answer questions and help your employees get the most out of their benefits.

6. Dedicated contact to answer questions and resolve issues

Instead of waiting on hold to get a live person on the phone, just call your dedicated group health expert at URL and we'll do the rest.

7. Onboarding and offboarding employees

We'll handle the carrier paperwork for any new hires or terminations.

8. Benefit administration system

House and administer all your benefits-related items in one convenient, organized location.

9. Open enrollment support

URL will walk you and your employees through each step of the open enrollment process.

10. Benefit management

We will help you manage your benefits package throughout the plan year.
