The Submit Application section explains important steps to complete the Open Enrollment Period (OEP) Application on the Pennie Platform. This section also covers the difference between a financial and non-financial application that helps Customers understand the available assistance to pay for their health and dental insurance coverage.

5.1 Financial Application vs. Non-financial Application

The Single Streamline Application (SSAP) allows Customers to apply for financial and nonfinancial applications on the Pennie Platform. The Financial application is for the Customer who wants financial assistance, and the Non-financial application is for the people who don't want assistance paying for their health and dental insurance coverage.

The “Help Paying for Coverage” section in the application is the gateway for the Customers to activate their Financial and Non-financial applications.

If the customer selects the option “No” when prompted, then they will have to pay full cost for Exchange health coverage, this is considered as a Non-financial application.

If the Customer selects the option “Yes,” then it is considered as a Financial application. The Customer will have to provide income information for qualification and eligibility purposes.

5.2 Steps to complete the Open Enrollment Period (OEP) Application

- Step-1: Go to Pennie - <https://pennie.com/>.
- Step-2: Click on the 'Customer Log In' button and enter login credentials.
- Step-3: Click on the 'Start New Application' button on the dashboard.
- Step-4: The following sections will explain you the steps that will guide you to complete your application successfully.

Verify your identity

Verify your Identity is the first step that the applicant must perform before submitting their Open Enrollment application on the Pennie Platform. The applicant must enter the primary household contact information (e.g., "First Name" or "Social Security Number (SSN)" or "Residential Address") and answer the identity questions. If the applicant is unable to verify their identity, then they must perform a manual verification process. In this process the applicant must upload a verification document (e.g., "Driver's License" or "Legal Birth Certificate"). The manual verification is approved by Pennie Customer Service Center (+1 (844) 844-8040).

PLEASE NOTE: Make sure to enter correct and complete information, as it will be used by Experian (an external identity verification provider) to confirm your identity and complete the identity verification process on behalf of Pennie as required by the Centers for Medicare and Medicaid Services (CMS).

Enter residential address, do not enter a business or P.O. address. You will not be able to submit your application for health and dental coverage until your identity is verified.

Notification of Remote Identity Proofing (RIDP) manual verification completion

Once a Pennie Customer Service Representatives approves the customer's manual verification request an email and secure inbox notification is triggered to the Customer account. The Customer email account will receive a new email from noreply@exchange.pa.gov with a link that says "log in to Pennie" (If the link does not work, copy and paste the provided link into a new web browser window). Following that, open the latest message from Pennie with the title "Your RIDP Manual Verification was successfully completed" in the secure inbox. The Customer can scroll down to view the acceptance message or click on the attached pdf file to download the acceptance message.
